Shoot to Thrill - AC/DC

I saw two requests for this in one week, so I assume it's not at Nevada yet. I don't really know how the solo goes, just wing something in the 12th position pentatonic and it'll sound pretty good over this riff.

If anyone cares, let me know & I'll do this whole album & 'High Voltage' too, 'cause there doesn't seem to be too much AC/DC tab out there.

Play this first, then a couple times over the next section

```
-----
-----
-----2-----
-2-----2-----
-0-3-4-0-----
-----
```

This is the main riff for the verses & the 1st half of the solo

```
-3---2---3---2-----2-----
--
-0---3---0---3-----3-----
--
-0---2---0---2-----2---2-----
--
-0---0---0---0-----0---2-----
--
-----3-0-----
--
-----
```

Or you can play it like this if your guitar sounds bad w/ open chords

(I think Angus plays open & Malcom plays power chords)

```
-----
--
-----
--
-7---7---7---7-----7-----
--
-5---7---5---7-----7-----
--
-----5-----5-----5--(7)-----
--
```

-----8-5-----
 --
 ^ No one will notice if you dont play
 | this whole chord & it's a pain in
 +--- the ass, so dont worry about it!

This is the piece that comes before the chorus.

 --

 --
 -5-----5-----5-----5-----7-----7-----7-----
 --
 -5---5---5---5---5---5---5---7---7---7---7-----7-----
 --
 -3---5---3---3---5---3---5---7---5-----5-----
 --
 -----3-----3-----5-----
 --

This little piece shows up all over the place, so figure the timing out.

 -0---3-3-0-3-3-0-3-3-0-3-3-0-3-3-0-----
 --

chorus:

-----3---3---3-3-3-2---2---2-2-2--2---2---2-2-2-----
 --
 -----0---0---0-0-0-3---3---3-3-3--3---3---3-3-3--0-----
 --
 -2---2---2-2-2-0---0---0-0-0-2---2---2-2-2--2---2---2-2-2--0-----
 --
 -2---2---2-2-2-0---0---0-0-0-0---0---0-0-0--0---0---0-0-0--0-----
 --
 -0---0---0-0-0-2---2---2-2-2-----^-----
 --
 -----3---3---3-3-3-----|-----
 --

Just smack the open strings --+
 once as you change back to the 1st

chord

Of course, there's always the easy way which sounds just as good...

 --

 --
 -2---2---2-2-2-----7---7---7-7-7--7---7---7-7-7-----

--
-2---2---2-2-2-5---5---5-5-5-7---7---7-7-7--7---7---7-7-7--0-----
--
-0---0---0-0-0-5---5---5-5-5-5---5---5-5-5--5---5---5-5-5--0-----
--
-----3---3---3-3-3-----
--

That should get you pretty close. If you ever get lost, just smack an A chord & smile & nobody will ever notice.
