Babe if you were mine

You just let me know
Em Bm
I'll be the one to catch your fall

The one I love loves someone else

Repeat it like the first couplet.
Don't stop the music it feels good
It keeps my mind of me missing you
Keep the rain away
There is nothing for me here
Without you by my side

Chorus: just like the first one

Baby what's it gonna be
Is it gonna be her or me
Tell me what I have to do
'cause I know that I'm good for you

Chorus again.

Babe if you were mine
