## In My Life

Lennon/McCartney

G D G D

There are places I'll remember all my li--ife though some have  
 changed,

Some forever not for better, some have go--one and some remain.

All these places had their moments, with lovers and friends I still  
 can recall,

Some are dead and some are living, in my life I've loved them all.

But of all these friends and lovers, there is no one compares  
 with you,

And these memories lose their meaning, when I think of love as  
 something new.

Though I know I'll never lose affection for people and things that  
 went before,

I know I'll often stop and think about them, in my life I'll love  
 you more.
