The electric plays the same intermittently over the main pieces, and some riffs also. (anyone?!)

I can't help about the shape I'm in  
 I can't sing I aint pretty and my legs are thin  
 But don't ask me what I think of you  
 I might not give the answer that you want me to

Now when I talk to God you know he understands  
 He said stick by me and I'll be your guidin' hand  
 But don't ask me what I think of you  
 I might not give the answer that you want me to

Enjoy!

...the young boy stood looking up the road to the future. In the distance both sides appeared to converge together. "That is due to perspective, when you reach there the road is as wide as it is here", said an old wise man. The young boy set off on the road, but, as he went on, both sides of the road converged until he could go no further. He returned to ask the old man what to do, but the old man was dead.
