'Learn To Fly' tab by The Foo Fighters
this is the best I could get just by hearing the
live version on Jools Holland.

There are two guitars, and I think that maybe guitar 1
which plays the following chords is clean all the time,
and i think the second guitar just keeps playing between
B and C# octaves.

Chords used:

	B	F#	E	G	A	D	B(octave)	C#(octave)
1:	2	2	0	3	0	5	x	x
2:	3	2	0	3	2	7	x	x
3:	3	3	1	4	2	7	4	6
4:	3	4	2	5	2	7	x	x
5:	2	4	2	5	0	5	2	4
6:	x	2	0	3	x	x	x	x

If you are just playing guitar 1's part, then i think
it sounds better if you use power chords with distortion
during the chorus. (B5 F#5 E5 etc.)

Structure:

Verse:

all the verses are just
B F# E E (clean)

Chorus:

B F# E E (distorted/clean - whatever you like)

at the end of each chorus the climb back into the verse is:
G A (then back to verse)

there is another verse where he uses some kind of
voice effect, I think the chords
go like this:

B G A E G A --> you do this twice and then back to chorus
or you can do this
B G D E G A --> do twice then back to chorus
OR you could do this :
B G D A G A --> do twice then back to chorus
and i think thats it. (all 3 would fit in i think)

If you have any comments or you know a better way then please
email me:
