Tabbed by Jeff Aldrich (ArglBargle[at]aol.com)

This is another great song from this CD, also one of the more loud and obnoxious songs. I really hate when FOO gets compared to Nirvana, but I must say that the singing in this song is very reminiscent of TOURETTES, don't you think? I've tabbed all the parts, I think you know where they go. The bridge was a little difficult to figure out, but I think it's right. On the verse, the recording sounds like the second chord is lower than the first. However, I believe that this effect is achieved by playing 3 on the E string in the C chord. It also might have to do with what the bass is playing. Please E-Mail me with comments and suggestions, I need to know what I've done wrong and what I've done right, and I always enjoy general comments about FOO FIGHTERS.
