**Listen to the song when playing this, Gavin's "forte" is to change chords in the most in uncomfortable times so Good Luck.

Intro: G A?

Verse 1:

```

                G      C
There's no need to beg babe,
                G
That's my open pocket,
C                D      C
You take the money from me, I can scrounge,
C                D      C
Gave me a fever that will not come down,
C                G      C      G
Obey, your a young woman cast aside, ostracized,
Em      D      C      G
Left on the sidewalk of my lonely life.

```

Chorus:

```

      D      C
For the young lovers taking the hill,
Em                C      D?
One plants his flag, while the other is killed,
D?      C      G
When the wine pours, we raise our cups,
Em      D      C      G
Young love is sacrificed, young love is tough,
Em      D      C      G
Young love is innicent, young love is us.

```

Verse 2:

```

                G      C
What did I get into,
                G
Now everything is untrue,
      C                D      C
Ohh, your eyes tell the lies of the lines that you say,
C                D      C
Now that I love you, Ohh I wish we never met,
C                G      C
Why wait, woman I'm taking risk here that noone dares,
      G      Em      D      C      G

```

And your scared, scared of the bottom afraid of the stares.

Chorus:

For the young lovers taking the hill,
Em D C D?
One plants his flag, while the other is killed,
D? C G
When the wine pours, we raise our cups,
Em D C G
Young love is sacrificed, young love is tough,
Em D C G
Young love is innocent, young love is us.

Bridge: (too tired to figure them out, i'll figure them out later)

Someone, I said someone has fell in love with a face

And it scares me to let it go

Still want it even though I get less than she takes

Chorus:

For the young lovers taking the hill,
Em C D?
One plants his flag, while the other is killed,
D? C G
When the wine pours, we raise our cups,
Em D C G
Young love is sacrificed, young love is tough,
Em D C G
Young love is innocent, young love is us
