PROPS GO TO: Chris Bolek (Chris2ferB584[at]aol.com)

INTRO I am 900% POSITIVE that this is the correct intro for the song, but you'll have to listen to the CD for the strumming pattern sorry I'm too busy correcting what was already on here. -----

 and get all mad at me for this, but I kinda forgot how to play the
 chorus, you know where Brandon Boyd's all like "whooooooo

 to play that although i dont know how well you can trust it seein
 as how everything else is wrong ITS JUST A.....RIFF this part starts
 real soft and muffled then it goes back into the Verse riff the
 first time, but the the second time is when the distorted heavy
 part kicks in -----
