This is played with a single 6-string acoustic guitar with standard (EADGBE) tuning. Listen to the song for the actual feel/timing of the song. The acoustic version has the same timing as the original, but for someone who's never heard the song - it's difficult to explain. I put the actual notes down - use this as a reference, use the song as a guide to to the timing. The chorus is just simple power chords so I didn't tab them. This tablature is my own work, it may be distributed freely.

Guitar Setup:
None - Acoustic only

Playing:
Since there are tricky fingerings, I try to play it a little harder so the open strings ring. Since there are a lot of changes, getting this song to "flow" is difficult at first. Have fun!
