This song is easy to play, and is quite slow with minimal effects.

## INTRO/VERSE:

```
E:--10---10-----6---8---
b:--11-----11-----8---10--
g:--12-----12-8---10--
d:--12-----12---8---10--
a:--10-----6---8---
e:-----
```

## CHORUS:

```
E:-----6---8---
b:-----11-----8---10--
g:-----12-12---12---8---10--
d:--12-----8---10--
a:---or-could-play-----
e:---bass-instead-----
```

## OUTRO:

```
E:--15----15---13---11--13--
b:-----11--13--
g:-----8---10--
d:-----8---10--
a:-----
e:-----
```

Alternatively, you can play lower open chords instead of the above progression.

(\*) down-tune half a step and play: G#m E F#  
or you can  
(\*) use a capo on the 3rd fret and play Em C D

That's it. I haven't got a clue about the solo, and obviously the choruses have a lot of ad-libbing in them.
