

**metallica - Master Of Puppets Solo**

 Subject: Need Help with Master Of Puppets!

I need some help with this! I only have an accoustic guitar right now, and the 'instrumental' part in the middle of Metallica's "Master of Puppets" is played on frets that are way too high....Heck, my guitar only has 20 frets, and I can't even reach those, let alone play them. Though I can play the guitar fairly well, I'm not very good with notes so high on the strings...it would be a great help if someone would take the time to lower these tabs by a few octaves so I could play them....I'm afriad I can't do much in return...I do have the TAB books to "...And Justice for All" and "Metallica" (Black Album) so I could post some of these in return if someone helps me with this!

That middle part in "Master of Puppets" by Metallica...
