Curmudgeon
 by
 NIRVANA

From the Lithium single
 Tune down one half step
 Eb Ab Db Gb Bb Eb
 (Low to high)

I didnt put how many times to play the riffs. Its easy to figure out.

^ = bend
 < = pull off
 / = slide

```
-----
-----
-----6-----6--
-----
--8/9--8/9--8-7---8/9--8/9--8-7---
--6/7--6/7--6-0---6/7--6/7--6-0---
  I'm a lady etc...
```

```
-----
-----
-----7^ 7^-----
-----5-5-5-5-5-5-5-----
--4-4-4-4-4-4-4-3-3-3-3-3-3-3-----
--2-2-2-2-2-2-2-2-----3<0-----
                               She's at the scene etc.
```

That's all except for the solo, but I'm not good enough to figure it out,
 and its mostly just weird noises anyway.
 I didn't put most of the words because I can't figure them out.
