

**nirvana - Frances Farmer**

From: ag725[at]FreeNet.Carleton.CA (Rick Scaia)

For "Frances Farmer": Again, just a guess... all power chords on this one. For the chorus, I think it's C#-E-D-Bb. Like this:

C#            E            D        Bb  
I miss the comfort in being sad

Then the end of the chorus is (starting on the Bb above): Bb-A-Bb-A-G-F#

From ther you can either go back into the verse (muted G#-E-G-E-G wide

open Bb) or into the bridge (Bb-D-Bb-D-E a couple times then into the same ending as the chorus). Once again, if you understand what I'm saying, give it a try, and let me know how it sounds. And if you want I'll try to post more clearly what I mean.
