Intro: B, E... 4X

```

B                E
Wake me up when it's over,
B                E
Wake me up when it's done,
B                E
When he's gone away and taken everything,
B                E
Wake me up.

```

Wake me up when the skies are clearing,
 When the water is still,
 'cause I will not watch the ships sail away so,
 Please say you will.

```

A                E                F#
If it were any other day,
A                E                B E B E
This wouldn't get the best of me.

```

But today I'm not so strong,
 So lay me down with a sad song,
 And when it stops then you know I've been,
 Gone too long.

But don't shake me awake,
 Don't bend me or I will break,
 Come find me somewhere between my dreams,
 With the sun on my face.

```

A                E                F#
I will still feel it later on,

```
